

#### Premium food for demanding aquarium fish

Suitable for:

- Selected raw ingredients ensure complete nutrition, ideal growth and vibrant colours for all discus fish.
- Nutritious, easy to digest, strengthens the immune system: species-specific feed intake thanks to semibuoyant granulate
- No water clouding: reduced algae growth thanks to balanced phosphate content, better water quality due to better digestibility of the food, which reduces fish excrement
- Fish prefer JBL food: 98.5% of all fish species ate the JBL food immediately during research expeditions in freshwaters. No processing of cheap fish meal, fish meat from fish fillet production for humans is used
- Contents: with Click doser; 250ml JBL premium main food 30313 for tropical freshwater fish. Use within 4 months after opening=100ml is sufficient for a 60l aquarium for 20 days. In high-quality packaging with foil seal. Unopened storable for 4 years
