JBL Clean A

Product information

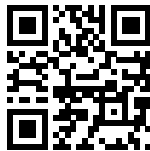

Maintenance and cleaning

Feed and plant remains and metabolic products pollute the aquarium water. Cleaning the tank and accessories and performing regular partial water changes take care of the dwellers and help you enjoy your aquarium more.

The JBL Clean A even dissolves most stubborn lime-scale on the outside of all aquarium panes.

Effortless cleaning

Spray on pane and wipe it dry with a soft lint-free cloth. Repeat, if required. In case of lime deposits allow several minutes to soak in before wiping off the deposit. In case of lime scales over the water level in the aquarium spray directly on the cloth and wipe away the deposits.
