JBL Clean T

Product information

Clean terrarium panes

The JBL Clean T dissolves even the most stubborn lime-scale on the terrarium pane. The powerful cleaner is non-hazardous to terrarium animals and dissolves lime scales on terrarium panes with no further agents required.

Effortless cleaning

Spray on pane and wipe it dry with a soft lint-free cloth. Repeat, if required. In case of lime deposits allow several minutes to soak in before wiping off the deposits. For lime scales above the water level inside the aquarium (e.g. in the drinking and bathing areas) spray directly onto the cloth and wipe away the deposits.
