

JBL wages a large-scale battle against blanket weed / filamentous algae

JBL wages a large-scale battle against blanket weed / filamentous algae

On the grounds of the football academy of SV Mattersburg (Austria), there is a pond that has suffered massive growth of blanket weed in 2011

With the support of JBL,
this pond was subjected
to algae treatment on 29
June 2011.

JBL wages a large-scale battle against blanket weed / filamentous algae

First, the JBL Testlab was used to check the water parameters, which were fine, so that we were able to proceed to Step 2 of the 1-2-3 Algae-Free concept.
