

## JBL BioNitrat Ex CristalProfi i60/80/100/200

Biological nitrate remover for CristalProfi i filters

- Biological removal of nitrate from the aquarium: special foam cartridge for the use in aquarium filters
- Removal of main nutrient of algae (nitrate) from the freshwater
- Removal of main nutrient of algae (nitrate) from the freshwater
- Nitrate breakdown exclusively through natural, bacterial degradation, without the use of chemical additives or replacement products
- Contents: special foam cartridge, Bio Nitrat Ex CristalProfi i 60/80/100/200

# JBL BioNitrat Ex CristalProfi i60/80/100/200

## Accessories

### **JBL BioNitratEx**

Biological filter material for the  
removal of nitrate

# JBL BioNitrat Ex CristalProfi i60/80/100/200

## Product information

### Clean and healthy water

Plant and food remains and metabolic substances lead to a deterioration of the quality of the water in the aquarium. Good water quality is necessary for healthy fish and plants. This can be achieved with various filters and filter materials. The filters suck in the aquarium water and remove the pollution and waste materials with the filter material from the water. With our research department and our worldwide expeditions into the habitats of the animals we continuously set new standards with our product innovations.
