

# JBL AlgoPond Sorb

Biological algae blocker for the pond

Suitable for: 

- Crystal-clear water by reducing the algae growth – biological algae blocker for the pond
- Easy to use: determine the required quantity, mix it with pond water in a watering can, pour it evenly over the pond
- Sunglasses effect: the reduction of light irradiation has a preventive effect against algae
- Active iodine and vital substances to promote the health of the fish, no decrease of the pH level or the hardness in the pond
- Contents: biological algae blocker, AlgoPond Sorb. Dosage: 40 ml per about 700 - 800 l pond water

# JBL AlgoPond Sorb

## Product information

"Sunglasses effect" thanks to biological algae blocker

The natural colour extracts of the peat in AlgoPond Sorb lead to a slight amber tinge in the pond water. This, similar to sunglasses, absorbs certain spectral components from the light. For the algae an essential part of radiation is missing and their growth is limited. Hardness and pH are not affected. Active iodine and vital substances promote the health of the fish.

Easy use of AlgoPond Sorb

Determine the required quantity. Mix with pond water in a watering can and spread it evenly over the pond. Don't filter with activated carbon. Also recommended for swimming ponds.

Dosage: 40 ml per about 700 -800 l pond water.
