

JBL LimCollect

Chemical-free snail trap for aquariums

Suitable for:  

- Catches unwanted snails, shrimps or crabs in the aquarium: chemical-free snail trap with variable height limit of the inlet
- Easy to use: fill the snail trap with food, insert rods to the desired height, place the snail trap in the aquarium overnight
- Two small rods for the variable height limit: to prevent fish from entering unintentionally. Also suitable for catching shrimps or crabs.
- Water flow: no oxygen problems for fish caught unintentionally
- Package contents: 1 chemical-free snail trap, Lim Collect II. Size: 11.7 x 9 cm

JBL LimCollect

Product information

Chemical-free and harmless

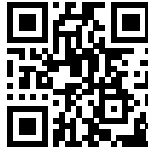

Due to excessive feeding snails in the aquarium can reproduce rapidly. With the chemical-free snail trap Lim Collect II snails can be harmlessly and effectively caught and thus reduced in the aquarium.

Lim Collect II

The chemical-free snail trap has 2 small rods, which can be variably inserted in height to prevent fish from entering unintentionally. Should this still happen, the fish will not get any oxygen problems because of the water supply. The trap is also suitable to catch shrimp or crabs.

Easy to use

At night most fish have a resting phase. The exception are nocturnal fish such as many armored catfish. There is therefore only a low probability that smaller fish will enter the trap at night. Fill the snail trap with food, select the height to insert the rods and place the snail trap in the aquarium. Due to the inside leading struts, the snails will not be able to leave the trap again.
