

JBL PROPOND COLOR S

Colour enhancing food for small koi

Suitable for:

- Complete food with the right protein/fat ratio 4:1 in accordance with the NEO index which takes temperature, function, animal size and age into account
- With salmon, shrimps, soya and astaxanthin for perfect colours (at 10-25 °C water temperature)
- Food size S (3 mm) for fish from 15-35 cm
- Floating pearls with 36 % protein, 9 % fat, 3 % crude fibre and 9 % crude ash
- Colour enhancing food pearls in resealable bag (air, water and lightproof) for the preservation of quality

JBL PROPOND COLOR S

Product information

NEO Index literally means: natural, energy-optimised nutrition. This is based on the ratio of proteins to fats in the food. Looking at the season alone, the fish would only need half as much protein in winter (2:1) as in summer (4:1). But because not only the season (meaning the water temperature), but also the size and age of the fish, and food function (e.g. growth food = ProPond Growth) play determining roles, the der NEO index has been developed to deal with all these factors in one. The fish's living conditions are also considered with the NEO index and factored in the special FunctionFood varieties.

Your young koi will also grow without growth food (JBL ProPond Growth), but they will grow more slowly and their body will not develop the beautiful shape it does when using this food. JBL ProPond Color will bring out the colours of your fish more distinctively and also make sure that the fish will retain their beautiful colours after purchase - because retailers generally feed this food to show off their fish in their most beautiful colours. It will also help younger fish (mostly two years old) to develop their colours properly when they are 3-5 years old. If you regularly feed your fish with ProPond Color their colours will show up more intensely, even at an older age.

JBL PROPOND COLOR S

Food type	floating pearls
Sub product type	complete food for ornamental fish
Dosing	Feed 1 - 2 times a day, as much as can be eaten within a few minutes

Analytical components

Crude protein	36 %
Fat content	9 %
Crude fibre	3 %
Crude ash	9 %

Composition

salmon meal
rice meal
soy bean meal
wheat meal
shrimp meal
corn meal
shrimps
wheat gluten
wheat germs
apple extract
yeast extract
green meal
lysine
methionine

Additives

Colourings
Astaxanthin

Vitamins, provitamins and other chemically defined substances having a similar effect (per 1000 g)	
Vitamin A	25000 I. E.
Vitamin D ₃	2000 I. E.
Vitamin E	300 mg
Vitamin C(stable)	200 mg
