

JBL Mangrove

Mangrove wood root for aquariums and terrariums

Suitable for:

- Hiding and spawning place for fish, hiding and climbing place for terrarium animals: mangrove roots for aquariums and terrariums. Essential fibres for armored catfish
- Decoration for individual design: reproduction of the animals' biotopes with natural materials – decoration attractive for animals and humans
- Natural product, water-neutral: no unwanted pollutants are released into the water. Weighing it down prevents the root from floating
- Tip: Before use lay the wooden root into a bucket with water for several days to avoid water discolouration
- Contents: tree root, mangrove. Note: since this is a natural product, the size can differ slightly

Product information

A piece of nature in the aquarium

Transform your aquarium into a biotope aquarium and give your creativity free rein. Design your aquarium according to your wishes and add visual effects with natural products. Experience nature with creativity.

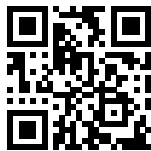

Reproduction of natural habitats

Aquarium and terrarium dwellers need particular locations where they can feel secure and comfortable. In their natural surroundings they choose roots or caves. These are used as hiding, spawning or sleeping places. Give your aquarium and terrarium pets a piece of their real habitat.

Decoration and function

The aquarium decoration consists of natural materials and doesn't harm the water quality. Harmless for aquarium and terrarium dwellers and plants.

Tip: Rinse under running water before using the decoration in the aquarium.
