

JBL SOLAR Reflect T5/T8 - 895-1500 mm

Reflector panel for fluorescent tube

Suitable for:     

- Doubles the light output of all fluorescent tubes
- Simple to mount: Just clip reflector on fluorescent tubes
- Maximum light output: higher penetration depth of the light thanks to optimised shape. No light loss thanks to dark inner surface of covers. Individual light alignment by turning
- Safety: plastic corners protect against injury. Corrosion-resistant, robust high-gloss aluminium
- Package contents: reflector panel incl. clips for fluorescent tubes, suitable for fluorescent tubes T8 Ø 2.6 cm and T5 Ø 1.6 cm

JBL SOLAR Reflect T5/T8 - 895-1500 mm

JBL SOLAR Reflect T5/T8 - 895-1500 mm

Product information

Maximum illumination without additional energy costs

An ideal illumination of the aquarium/terrarium is important to promote plant and coral growth and to minimise algae growth. With the use of reflectors you will ensure maximum light efficiency without additional energy costs. In addition they serve as glare protection when working on the aquarium.

Efficient shape

The M-shape of the JBL reflector panels don't just reflect the light back towards the tube but redirects it directly towards the water. The rounded plastic corners protect against injury.

Simple to mount

Push the fluorescent tube into the UV-resistant plastic clips. Optimised clip holder for simple (clip) change.
