

JBL SOLAR Reflect T5/T8 438-850 mm

High-performance reflector panel for fluorescent tubes

Suitable for:

- Doubles the light output of all fluorescent tubes
- Easy to install: just press reflector on fluorescent tube
- Maximum light output: higher penetration depth of the light thanks to optimised shape. No light loss thanks to dark inner surface of canopies. Individual light alignment by turning
- Safety: plastic corners protect against injury. Corrosion-resistant, robust high-gloss aluminium
- Package contents: reflector panel incl. clips for fluorescent tubes, suitable for fluorescent tubes T8 Ø 2.6 cm and T5 Ø 1.6 cm

JBL SOLAR Reflect T5/T8 438-850 mm

Product information

Maximum illumination without additional energy costs: An ideal illumination of the aquarium/terrarium is important to promote plant and coral growth and to minimise algae growth. With the use of reflectors you will ensure maximum light efficiency without additional energy costs. In addition they serve as glare protection when working on the aquarium.

Efficient shape: The M-shape of the JBL reflector panels doesn't just reflect the light back towards the tube but redirects it towards the water. The rounded plastic corners protect against injury.

Simple to mount: Just clip reflector on fluorescent tubes.
