

JBL PROSILENT a300

Air pump for fresh and saltwater aquariums

Suitable for:   

- Health and well-being for fish and plants: air pump for fresh and saltwater aquariums from 100 up to 400 l
- Easy to install: connect pump with air hose and air stone. Mount pump outside aquarium, place air stone inside the aquarium
- Reduced noise level: noise suppression air chamber, vibration dampening silicone feet, reinforced housing wall, adjustable air outlet, 90° rotatable air connection with hose screw connection
- TÜV tested, powerful: 300 l/h air output with > 160 mbar air pressure with only 3.9 W consumption, check valve prevents backflow of water into the pump
- Package contents: air pump for freshwater and saltwater aquariums from 100 up to 400 l, Pro Silent a300, incl. 2 m air hose, check valve, air stone

JBL PROSILENT a300

Accessories

JBL backflow protection
 Backflow stop for air pumps

JBL ProSilent Safe
 Water backflow stop

JBL ProSilent Control
 Adjustable precision air shut-off valve

JBL ProSilent Tube
 High-end silicone hose

JBL Aquarium tubing GREEN on reel
 Green-transparent hose wound on a plastic reel

JBL Aquarium Tubing GREEN
 Pre-cut green hose for aquariums & ponds

JBL silicone hose 4/6 mm on reel
 Semi-transparent air hose, rolled on reel

JBL Silicone Hose 4/6 mm
 Silicone hose with 2.5 m length and 4/6 mm diameter

JBL Aquarium Tubing GREY
 Pre-cut grey hose for aquariums & ponds

JBL Aquarium tubing GREY on reel
 Grey-transparent hose wound on a reel

JBL ProSilent Aeras Micro S2
 Ball air stones for fine air bubbles in aquariums

JBL ProSilent Aeras Micro S3
 Air stone set for fine air bubbles in aquariums

JBL PROSILENT a300

Accessories

JBL ProSilent Aeras Micro

Air stone for fine air bubbles

JBL ProSilent Aeras Micro Ball L

Air stone for fine air bubbles

JBL Aeras Marin

Wooden air stone for marine
aquariums

JBL ProSilent Aeras Micro Plus

Air stone for fine air bubbles in
aquariums

JBL PROSILENT a300

Spare parts

JBL PS a100 diaphragm set a100-a400

JBL PS a100-a400 screws

JBL PS a100-a400 bottom part

JBL PS a300/400 air connection

JBL PS a300/400 air chamber

JBL PS a300/400 air filter

JBL adapter UK for all flat-pin plugs

JBL Cap Nut Air/CO₂ hose

JBL PROSILENT a300

Product information

Healthy fish

An air pump for aquariums is an advantage during the night since plants need light to produce oxygen. In thinly planted aquariums the air pump supplies the necessary water circulation. In aquariums with dense planting the air pump provides the aquarium with oxygen at night, since the number of plants means the oxygen concentration can drop to a dangerous level. When disease is present in the aquarium the air pump increases the oxygen level in the water, an essential condition for many medications.

Simple to connect

Connect hose with air pump. Cut air hose and insert check valve. Cut the remaining hose to the desired length. Connect one end with check valve and other end with air stone. If possible mount the pump on the wall next to the aquarium. Hook for hanging up attached. Regulate air quantity at air outlet.

Safe and powerful

The JBL ProSilent air pump is TÜV tested. With 300 l/h air output and only 3.9 W power consumption it is powerful and ensures safety through an air connection with hose screw connection. A noise suppression air chamber, the reinforced housing wall and vibration dampening silicone feet reduce any noise. The device is equipped with a check valve.

Important: because the noise level cannot be totally eliminated, the pump is not suitable for use in bedrooms.
