Product information

REPRODUCING NATURAL HABITATS

Terrarium animals need places where they can feel secure and comfortable. In their natural environments they choose roots or caves. These are used as hiding and sleeping places or for egg deposition. Create a piece of genuine habitat for your terrarium pets.

NOT DANGEROUS FOR THE DWELLERS

JBL's cave ReptilCava is made of a non-toxic, through-dyed resin. It does not emit any harmful substances. The cave has a heavy-duty, stable design to prevent accidental knocking over. The cave is available in various colours and sizes.
