

JBL Artemio 4

4-piece sieve set for live food, e.g. Artemia

Suitable for:  

- Sieve set for ArtemioSet or other Artemia breeding devices: sieves with mesh sizes 0.15/0.3/0.6/1.0 mm
- Use: let water with Artemia run through and feed sieved Artemia (or other live/frozen food) to the fish
- Sieve combination to sieve out different sizes of live food between 0.15 and 1.0 mm. Fits precisely on the JBL Artemio 2 harvesting container
- Suitable also for other types of live food and for frozen food to separate the condensation water from the food
- Packaging contents: 4 sieves, exactly fitting on the JBL Artemio 2 harvesting container

JBL Artemio 4

Product information

Fish love a varied diet

An unbalanced fish diet can lead in the long term to deficiency symptoms, diseases and fatty degeneration of organs. Provide your aquarium dwellers with a varied diet in the form of live food. When catching or purchasing live food there is a risk of introducing bacteria and parasites into the aquarium.

Producing your own live food has many advantages:

- Free of parasites
- Rich in fibre & healthy
- Not just a „pool“ anymore
- Promotes the hunting instinct of the fish
- Increases readiness of spawning
- Easy, quick and convenient
- Affordable alternative compared to frozen food
- It's fun to do it yourself
