

JBL PROTERRA TORTOISE FLUID

NEW

Liquid multivitamins for all tortoises

Suitable for: 

- Multivitamin complex especially for all tortoise species to enrich the food
- How to use: Simply drip onto the food, allow to absorb and feed
- Multivitamin complexes effectively prevent deficiency symptoms and thus protect the animals
- Dried foods still contain many vitamins, but not the 100% vitamin content that fresh flowers, vegetables or fruits have. Therefore, a weekly vitamin supplement is proven to be very healthy for the animals
- Contains: 2 dropper bottles of 10 ml each with multivitamin solution especially for tortoise species

JBL PROTERRA TORTOISE FLUID

Product information

Vitamins meet several requirements in turtles: On the one hand, they boost their resistance to infections and diseases, and on the other hand, they prevent vitamin deficiency diseases, which can occur with an unbalanced diet or when feeding older food. Young animals need significantly more vitamins in the growth phase than adult animals.

In addition to vitamins, the supply of minerals is essential, for example, to enable healthy shell formation. A varied diet in combination with the addition of vitamins and minerals is therefore ideal to keep turtles healthy throughout their long life.
