

JBL Aquarium Thermometer Mini

Aquarium thermometer

Suitable for:   

- Precise measurement for healthy fish: mini thermometer has fine measuring scale with a 2 °C gradation
- Easy to install: attach with suction cup (also suitable for clamping onto JBL CristalProfi m internal filter)
- Safe: blue, non-toxic alcohol filling (instead of mercury)
- Scale from 0 to 50 °C
- Package contents: aquarium thermometer Mini

JBL Aquarium Thermometer Mini

 Spare parts

JBL suction cup with hole, 5 mm

Rubber suction cups for objects of 5 mm in diameter

JBL Aquarium Thermometer Mini

Product information

Healthy fish and plants

Fish depend on the right ambient temperature because, being cold-blooded animals, they are not able to adjust their own body temperatures. The vital functions of cold-blooded animals decrease with falling temperatures. The right aquarium temperature is therefore very important to ensure the animals maintain their food intake and guarantee a smooth continuation of all metabolic processes. Depending on the origin of the fish, the temperature they feel comfortable at, varies. With the JBL aquarium thermometer Mini you can monitor the temperature on a fine measuring scale with a 2 °C gradation. The thermometer has a length of 60 mm and a diameter of 5 mm. It is filled with non-toxic alcohol.
