

JBL TorMec CristalProfi e

Active peat pellets for CristalProfi e

Suitable for:

- Clean and healthy water: active peat pellets for CristalProfi e, to reduce carbonate hardness and pH value, prevents algae growth
- Use: transfer into a filter basket, rinse with water, insert into the filter
- Two peat components with different humic substance content: fast initial effect, well dosed long-term effect. Prevents algae growth: very light amber water colouring
- Ideal keeping and breeding conditions for fish from blackwater habitats.
- Package contents: 1 x active peat pellets

Product information

Clean and healthy water

Plant and food remains and metabolic substances lead to a deterioration of the quality of the water in the aquarium. Good water quality is necessary for healthy fish and plants. This can be achieved with various filters and filter materials. The filters suck in the aquarium water and remove the pollution and waste materials with the filter material from the water.
