

JBL suction cup with clip, 6 mm

Transp. suction cups + clips for objects 6mm approx.

Suitable for:   

- High quality soft PVC suction cups with robust 6 mm clip for objects, such as hoses, pipes, glass tubes and the JBL PROFLORA Taifun P CO2 diffuser
- To attach: simply press the suction cup FIRMLY on the previously cleaned pane and press the hose etc. into the clip. For terrariums above water, moisten the suction cup beforehand
- The flexible but stable clips made of POM (a plastic with good mechanical properties and excellent sliding and wear behaviour) for all objects between 5 and 7 mm diameter
- Clip and suction holder can be separated. The transparent suction cups are unobtrusive and make the technology in the aquarium almost invisible
- Contents: 1 package contains two suction cups with clips

freshwater aquariums

JBL suction cup with clip, 6 mm

Product information

Suction holders have become an integral part of aquaristics. They are used in many different ways to hold pipes, hoses and technical equipment in place. They are made of plastics that do not release toxic or harmful substances into the aquarium water, yet retain their flexibility and are slow to harden. Nevertheless EVERY suction cup loses its flexibility over time and must be replaced. The better the quality of the suction cups, the longer they remain flexible!
