

Test case with most important water tests + NH4 test

- Monitors the water values in aquariums simply and reliably. Determines: pH value, carbonate hardness, nitrite, nitrate and ammonium/ammonia, as well as CO2 calculation using a table
- Easy to use: syringe for exact measurement of the water quantity, detailed instructions for use
- Laboratory comparator system to compensate the inherent water colouring, analysis record sheet, instructions for problem solving, CO2 table
- Child-proof reagent bottles, water-proof plastic case, refillable kit
- Package contents: 1 test case for freshwater aquariums, incl. 5 reagents, 3 glass vials, syringe, dosing spoon, comparator block, plastic cuvette, colour charts, analysis record sheets, instructions

Healthy aquariums with conditions close to nature The right water values are dependent on the fish stock and the plants in the aquarium. Even if the water looks clear it can be contaminated. With bad values diseases or algae can appear in the aquarium. To maintain a healthy aquarium with conditions close to nature it is important to check and adapt the water values regularly. With the JBL Test Combi Set you can determine the 5 most important water values in your aquarium.

Precise measurement of the following values: pH test: acidity of the water from 3.0 to 10 KH test: pH stability of the water (carbonate hardness)

NO2 test: toxic nitrogen compound NO3 test: reason for algae growth

NH4 test: indication of non-toxic ammonium, determination of the toxic ammonia using table

To determine the CO2 content you just need to measure the pH and KH values. From both values arises the CO2 content in the water, which then can be referenced from the enclosed table.

You can analyse your measured water values in the JBL Online Laboratory free of charge and receive recommendations.

#### **A** Safety information

- safety information in accordance with GHS	
Signal word	Danger
Hazard symbol	
Risk phrase	H261: In contact with water releases flammable gases. EUH206: Warning! Do not use together with other products. May release dangerous gases (chlorine). H412: Harmful to aquatic life with long lasting effects. H400: Very toxic to aquatic life. H335: May cause respiratory irritation. H341: Suspected of causing genetic defects. H317: May cause an allergic skin reaction. H314: Causes severe skin burns and eye damage. H225: Highly flammable liquid and vapour.
safety note	P101: If medical advice is needed, have product container or label at hand. P102: Keep out of reach of children. P103: Read label before use. P210: Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. P301+P310a: IF SWALLOWED: Immediately call a POISON CENTER/ doctor. P303+P361+P353: IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P405: Store locked up. P501a: Dispose of contents/container in accordance with local/regional/ national/international regulations.
