## Product information

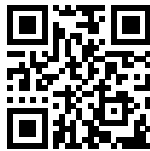

Especially for the requirements of reptiles and terrarium animals  
If wrongly kept, living feeder animals can lose their optimal nutritional value. With JBL TerraCrick you improve the nutritional value of the feeder animals and thus optimise the feeding of your terrarium animals.

### Valuable ingredients

The feeder insects for terrarium animals originate mostly from breeding stock and empty their digestive tract completely in transport. JBL TerraCrick replenishes their digestive tract and supplies it with valuable ingredients, such as minerals, carbohydrates and vitamins.

### Feeding recommendations

Offer the feeder insects TerraCrick and a flat bowl with water 24 hours before feeding them to your terrarium animals.
