

JBL MicroMec CristalProfi e

High-performance filter balls for CristalProfi e

Suitable for:

- Clean and healthy water: high-performance filter balls with highly porous structure for CristalProfi e
- To use: Transfer into the filter basket. Rinse with water, insert into the filter.
- Outer layer: breakdown of ammonium and nitrite, bacteria on the inside: breakdown of nitrate.
- Biological filter material made of sintered glass: helps beneficial cleansing bacteria to settle more quickly
- Package contents: 1 x high-performance filter balls 1 l.

JBL MicroMec CristalProfi e

Product information

Clean and healthy water

Plant and food remains and metabolic substances lead to a deterioration of the quality of the water in the aquarium. Good water quality is necessary for healthy fish and plants. This can be achieved with various filters and filter materials. The filters suck in the aquarium water and remove the pollution and waste materials with the filter material from the water.
