JBL CristalProfi e701 greenline

External filter for aquariums from 60 - 200 litres

Suitable for:

- External filter for healthy aquarium water: closed water circuit for aquariums of 60 - 200 litres (60 - 100 cm)

- Fully equipped and ready to connect: built-in quick-start priming button, filter start without manual priming. Simple assembly

- Extremely smooth running at 700 l/h pump performance, patented pre-filter system: high/biological filter performance with a volume of 6.1 l, water stop, 360° rotatable hose connections, easily exchangeable filter media

- TÜV tested, safe and energy-efficient: lower power consumption than previous models – consistant performance

- Package contents: external filter unit for aquariums, CristalProfi e701 greenline, incl. 12/16 hoses & pipes, intake strainer, elbow, suction cups, filter media (bio-filter balls and bio-filter foam), dimensions (L/H/W): 280 x 360 x 240 mm

Product information

Clean and healthy water
Plant and food remains and metabolic substances lead to a deterioration of the quality of the water in the aquarium. Good water quality is necessary for healthy fish and plants. This can be achieved with aquarium filters. The filters suck in the aquarium water and remove the pollution and waste materials with the filter material from the water Filters also offer an ideal habitat for bacteria which decompose harmful substances.

Easy to install
The external filter is completely equipped and ready to connect. The built-in quick-start device makes the filter easy to install without the need for manual priming. The filter media are included in the contents.

Easy to clean
Replacing the easy to reach pre-filter means that you only rarely need to clean the rest of the filter. The large filter volume provides a high biological filtering performance involving several filter layers. The bio-filter balls inside have different diameters. This promotes the self-cleaning effect.

Energy efficient and safe
With only 9 W power consumption the CristalProfi e701 offers substantial energy savings. The patented hose connection bloc with a safety valve prevents water leakage when disconnecting the filter. JBL CristalProfi is TÜV tested.
