JBL Desinfekt

Product information

Preventive disinfection is the best and safest way to prevent diseases!

Disinfection of the aquarium

For the initial setting up of an aquarium or after the outbreak of incurable diseases such as fish tuberculosis in aquariums it is important to kill unwanted germs. JBL Desinfekt has a very powerful bactericidal, fungicidal and virucidal effect and eliminates the germs in aquariums and terrariums, on decoration material and fishing gears.

Easy to mix

Desinfekt may not be used when there are still animals in the aquarium. The disinfection solution can be mixed easily in a bucket. Please follow the enclosed instructions.
