

JBL PROTERRA TORTOISE MENU

NEW

Food assortment of 4 varieties for all tortoises

Suitable for: 

- For a varied, healthy and balanced diet for all tortoise species
- This set allows you to feed your turtles a variety of foods. This way you can quickly see which food your turtle likes best and then buy it later as their main food in larger containers
- The following foods are included: JBL PROTERRA FRUCTIL (fruit), JBL PROTERRA FLORSIL (flowers), JBL PROTERRA HERBIL (herbs), JBL PROTERRA VEGABIL (vegetables)
- This set allows you to feed your tortoises 4 types of food with fruit, flowers, vegetables, herbs and vegetable loops and sticks. It couldn't be healthier and more varied
- Contains: 1x 250 ml JBL PROTERRA FRUCTIL, 1x 250 ml JBL PROTERRA FLORSIL, 1x 250 ml JBL PROTERRA HERBIL, 1x 250 ml JBL PROTERRA VEGABIL. All tin lids contain a dosing aid. All tins are made of fully recyclable PP mono-material

JBL PROTERRA TORTOISE MENU

Product information

This set of 4 tortoise foods provides the perfect diet for all tortoise species. Tortoises are quite particular to fruits, flowers, herbs or vegetables. This set gives you the chance to try out which food your tortoise prefers, so that you can use it as its main food afterwards. The other foods can then be used for a change and as a supplement, since tortoises need a lot of variety in their diet to remain in good health.

The set contains:

JBL PROTERRA FRUCTIL: Main food with fruits for a varied diet for all tortoises

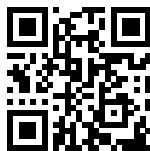

JBL PROTERRA FLORSIL: Main food with flowers for a varied diet for all tortoises

JBL PROTERRA VEGABIL: Main food chips and vegetables for all tortoises

JBL PROTERRA HERBIL: Complete vegetable food made from herbs and sticks for all tortoises

JBL expeditions often visit turtle habitats, be it in the deserts or, even more frequently, in the wetlands of the tropics. The observations of their way of life and eating habits are incorporated into the development of the JBL foods. This information directly from the wild is extremely valuable, as it would otherwise hardly be available.

The aim should always be to care for the animals in a species-appropriate way and ideally to provide for offspring in order to reduce the removal of species from the wild. Although breeding is not absolutely necessary for some species, as the species relevant to the trade come from offspring or are not endangered, JBL nevertheless considers it desirable to breed pets.
