

JBL CarboMec ultra Pad CristalProf i60/80/100/200

Filter insert with activated carbon for CP i range

Suitable for:

- Clean and healthy water: activated carbon insert prevents water discolouration and odours, removes medication residues
- To use: simply position the filter cartridge in the filter container instead of the filter sponge
- Water-neutral, high-quality activated carbon which does not release phosphate into your aquarium water
- Renew after about 2-3 weeks or immediately after the problem has been solved. Does not release bound problem substances back into the aquarium water
- Package contents: 1 ready-to-install filter insert with 190 ml high-quality activated carbon

Product information

Clean and healthy water

Plant and food remains and metabolic substances lead to a deterioration of the quality of the water in the aquarium. Good water quality is necessary for healthy fish and plants. This can be achieved with various filters and filter materials. The filters suck in the aquarium water and remove the pollution and waste materials with the filter material from the water.
