

JBL PROFLORA CO2 ADAPT U - u201

CO2 adapter f. pressure reducer - dispos. bottle M10x1

Suitable for: 

- Adapts the pressure reducer, e.g. JBL PROFLORA u201 (thread: 5/8" UNF), to all disposable cylinders with a M10x1 thread (e.g. JBL PROFLORA CO2 CYLINDER 500 U/1200 U)
- To assemble: screw the adapter into the pressure reducer, then screw the pressure reducer onto the disposable CO2 cylinder
- Adapts all pressure reducers with thread 5/8" UNF to disposable cylinders with thread M 10x1
- Dimensions (l/w/h) 22/24/22 mm
- Package contents: 1 adapter for pressure reducer with thread 5/8" UN on disposable CO2 cylinders with thread type M 10x1

JBL PROFLORA CO2 ADAPT U - u201

Product information

Disposable or reusable CO2 cylinder?

There are 2 different cylinder types: disposable cylinders that are disposed of and recycled after emptying and reusable cylinders that can be refilled again and again. Many pet shops and gas companies can carry out the refilling. If you live in a region where refilling is a problem, the disposable cylinder can be an alternative. Should the refilling situation improve, you can always convert the disposable pressure reducer into a reusable pressure reducer in 2 minutes by unscrewing the adapter (JBL PROFLORA ADAPT U-M).

Thread:

JBL refillable CO2 cylinders and many other refillable CO2 cylinders have the following thread connection: W 21.8x1/14 JBL disposable CO2 cylinders and some others (not all!) have the following thread connection: M 10x1

Disposable cartridges are a special case because they have a different thread type: 5/8" UNF. The thread adapter JBL PROFLORA ADAPT U-u201 is intended for pressure reducers like the JBL PROFLORA u201, which are designed to fit these disposable cartridges. This means that instead of the smaller CO2 cartridges with the small pressure reducer, the larger 500 or 1200 g CO2 disposable cylinders can also be used (e.g. JBL PROFLORA CO2 CYLINDER 500 U or 1200 U).
