- Easy assembly: connect frame, insert into net, bend metal holder to fit aquarium rim
- Package contents: 1 x JBL Net spawning box for juvenile fish, NBox. Dimensions: 17 x 12.5 x 13.5 cm

JBL NBox

Product information

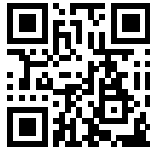

Protection for the fry - Juvenile fish are hunted by other fish and seen as live food. Therefore we need to protect and to separate them. Spawning boxes in the form of nets, containers, cones or caves are efficient solutions to ensure the survival of the fish offspring.

Advantage of spawning boxes: Protects fry from predators, safe breeding, easy installation, generous volume for better growth, ideal water flow

Easy to install: Slot the frame together, position in net, adapt holder to aquarium rim.

50 years of innovation for the love of pets. In 1960 Joachim Böhme turned his hobby into a profession and opened a pet shop. His love of animals, his personable nature and his specialist knowledge contributed to his success. The family business, which is now in the 2nd generation, operates worldwide and has a range of over 1,000 products in the fields of aquatics, terraristics and garden pond. Customer needs are the company's top priority.

With its production location in Germany JBL not only demonstrates social responsibility, but also ensures its high product quality. Its research department and its worldwide expeditions into the habitats of the animals ensure that JBL sets the highest standards in its product innovations.
