

# JBL PROTEMP Cooler x300 (gen 2)

Cooling fan for 90-300 l freshwater & marine aquariums

Suitable for:  

- Cools water temperature by 2 - 4 °C at higher ambient temperatures: cooling fan with modern cross-flow fan and broad air flow for aquariums
- Easy to mount on the aquarium edge: pane thickness max. 2.4 cm. Air flow direction freely selectable and casing on mount rotatable by 360 °. Connect with power supply unit and plug power supply unit into the socket - the cooler is on
- Cool water through air flow at the water surface = evaporation cooling. Can be extended with JBL CoolControl temperature control. 2nd Generation: quieter thanks to improved fan wheel bearing
- Safety: 12 V extra-low voltage, safety cover grid. Power supply for all common mains voltages worldwide. With adjustable air jet angle
- Package contents: 4 W cooling fan for aquariums, power supply unit with 150 cm cable leading to the cooling fan. Cylinder fan wheel 18.5 cm wide; casing width 27 cm, casing height 6 cm

## Product information

### Temperature control

Two important factors affect the water temperature in the aquarium: firstly the room temperature and secondly direct sunlight. If the room temperature in summer increases significantly, it is important to check the temperature in the aquarium regularly. Aim for 24-26 °C. Temperatures above 30 °C are a problem and can cause substantial damage to fish and plants. And never expose an aquarium to direct sunlight. The higher the temperature, the less effectively the oxygen (which is vital for the animals) dissolves.

### Easy to install

The bracket of the cooling fan is placed onto the aquarium rim (up to max. 2.4 cm thickness) and fixed with clamp screws.

### Cools by evaporation

The JBL PROTEMP Coolers for freshwater and marine aquariums cool between 2-4 °C with the help of cross-flow fans. The air flow helps the warm water to evaporate at the water surface and thus generates evaporative cooling. This is comparable to the evaporation cooling effect when wet skin is exposed to the wind.

### Safety

The water cooler has a safety cover grid and is operated with an extra-low voltage of 12 V.

## Product details

Article data	
Product name	JBL PROTEMP Cooler x300 (gen 2)
Art. No.	6044700
EAN number	4014162604477
EAN as barcode	
Length	180 mm
for litres	60-200
Expiry months	-
RRP incl. VAT	72,23 €
Base price	-
Nominal filling quantity	-
Base quantity	1
Gross weight	519.3 g
Net weight	379 g
Weight change	-

Disposal	
Product name	JBL PROTEMP Cooler x300 (gen 2)
