

# JBL PROFLORA CO2 PROFESSIONAL SET U

CO2 plant fertiliser complete set + CO2/pH control

Suitable for:

- CO2 fertiliser system with automatic CO2/pH control. Provides the ideal supply for all aquarium plants in freshwater aquariums from 40-600 l and combats algae too. Purchase the pH electrode separately to ensure it is factory-fresh
- Simple assembly: screw pressure reducer onto cylinder, connect the solenoid valve to the CO2 control unit and the hose to the bubble counter/check valve and the reactor. Connect the pH electrode (not included). Adjust the CO2/pH control unit - done
- Disposable storage cylinder. No hose slippage thanks to hose screw connections, check valve prevents water from entering the cylinder. Pressure gauges show cylinder and working pressure
- The CO2/pH control unit measures the pH value (CO2-dependent) via the pH electrode (not included) and automatically regulates the CO2 supply via the solenoid valve until the ideal pH value with the correct amount of CO2 is reached
- Package contents: 500 g disposable CO2 cylinder, pressure reducer with solenoid valve, CO2/pH computer, 3 m hose, bubble counter with non-return valve, TAIFUN CO2 reactor with extension set, 2x plant fertiliser 100 ml, 1x daily fertiliser 10 ml

## Product information

### Nutrition for aquarium plants

Plants provide the aquarium with vital oxygen for your aquarium inhabitants, prevent algae growth, remove pollutants, provide hiding places and reduce pathogens. Plant fertiliser systems with CO2 cylinders supply the plants with the main nutrient CO2 through the water. The plants absorb this and convert it into sugar and oxygen in photosynthesis with the help of light.

### Easy to install

The system comes completely ready to connect. Screw the pressure reducer onto the CO2 cylinder and connect it to the bubble counter (incl. backflow protection) and then to the reactor in the aquarium by means of a hose. CO2 thus enters the aquarium and is dissolved in the water with the help of the reactor. The solenoid valve is regulated by the CO2 control unit and only adds CO2 if the pH value is too high (pH value depends on CO2). This means that there is always the ideal amount of CO2 in the water.

### Technical information

Incl. temperature sensor, modern graphic display with touchpad, sensor check during each calibration, error diagnosis during failed calibration, permanent display: pH actual/set value, sensor voltage, temperature, calibration reminder in days/hours, valve status, precision of measurement, set point adjustment: freely selectable or automatic calculation by means of auto pH, automatic temperature compensation during measuring and calibration, hysteresis freely selectable (upper and lower deviation from switching point), alarm function pH (alarm range), alarm function temperature (range and set point alarm), selectable valve status, language selection: D/BG/F/NL/I/DK/E/P, reset function, universal power unit suitable for all common mains voltages worldwide.

### pH electrode

A pH electrode is NOT included in the set and needs to be purchased separately. This ensures that you do not receive an aged electrode in the set, but always a factory-fresh one!

## Product details

Article data	
Product name	JBL PROFLORA CO2 PROFESSIONAL SET U
Art. No.	6463200
EAN number	4014162646323
EAN as barcode	
Content	500 g
Range	40-600 l
Expiry months	-
RRP incl. VAT	521,15 €
Base price	-
Nominal filling quantity	-
Base quantity	1
Gross weight	3948 g
Net weight	3103 g
Weight change	-

Disposal	
Product name	JBL PROFLORA CO2 PROFESSIONAL SET U
Art. No.	6463200
Green dot	✓
Group electronic waste	Small appliances that can be used in private households
Disposal weight	345 g

Battery return	-
Battery rechargeable	-
Disposal weight battery	-
Non-returnable glass	-
PPK	845 g
Plastic small	-
Plastic large	-
Disposal weight metal	1164 g

Features	
Product name	JBL PROFLORA CO2 PROFESSIONAL SET U
Art. No.	6463200
Animal species	Arowana, Axolotl, Barbels, Bettas, Bichirs/reedfish, Blowfish, Catfish, Cichlids (South America), Crayfish, Danions, Discus, Dwarf shrimps, Goldfish, Gouramis, Guppy, Juvenile fish, Killifish, Livebearers, Loaches, Panchaxes, Rainbowfish, Snails, Spiny eels, Tetra, Veiltails, freshwater butterflyfish

Features	
Animal size	For all animal sizes
Animal age group	All aquarium fish
Volume of habitat	600 L
Material	Plastic (PC), metal (steel), metal (aluminium), plastic (ABS), metal (copper)
Food type	-
Colour	multicoloured
Dosage	-
Transport conditions	Protect from direct sunlight during storage and transport and ensure good ventilation.
