

# JBL TerraSand natural red

Substrate for desert terrariums

Suitable for: 

- For desert terrariums: natural substrate made of fine red sand, grain size: 0.1 – 0.2 mm
- Fine, virtually dust-free sand which, in moist condition, can be easily formed into caves etc., and keeps its shape after drying
- Fine grain encourages the natural digging behaviour of many species
- Round grain shape reduces abrasive effect on the animals' skin
- Contents: substrate in a bag

# JBL TerraSand natural red

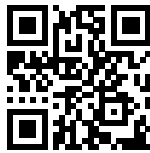

## Product information

Substrates suitable for terrarium animals

To give the terrarium animals a home modelled on nature the terrarium needs to be modelled closely on the animals' biotope. It is crucial that the size of the terrarium suits the animals' requirements, amongst other factors. During the set-up it is important to have the right substrate, plants, air circulation, lighting and warmth in the terrarium.

TerraSand is suitable for the following animals in the desert terrarium:

bearded dragons, leopard geckos, sand boas, horned lizards, rainbow agamas, desert iguanas, spiny lizards, spiny-tailed monitors, Hispaniolan masked curly-tailed lizards, desert scorpions

## Product details

Article data	
Product name	JBL TerraSand natural red 7.5 kg
Art. No.	7101700
EAN number	4014162710178
EAN as barcode	
Content	7,5 kg
Graining	0,1-0,2 mm
Expiry months	-
RRP incl. VAT	24,00 €
Base price	3.2 €
Nominal filling quantity	7.5 kg
Base quantity	1 kg
Gross weight	7529 g
Net weight	7500 g
Weight change	1000

Disposal	
Product name	JBL TerraSand natural red 7.5 kg
