

JBL BabyHome pro Air

Spawning box for air stone installation

Suitable for:  

- Protection against large fish: spawning box for viviparous aquarium fish; isolation tank for sick or aggressive fish
- 3 functions: single spawning box, double spawning box or breeding box
- Effective – intended for the use of an air stone: When using an air stone inside the spawning box the oxygen content rises, which dramatically reduces the risk of a fungal infection of the spawn
- Simple installation: attachment of the spawning box with suction cups at the side to the aquarium wall. Slits of the spawn grid: 2 mm; side slits: 0.5 to 0.8 mm
- Contents: 1 spawning box for air stone installation. Size: 200 x 98 x 98 mm

Product information

Protection for the fry

Juvenile fish are hunted by other fish and seen as live food. Therefore we need to protect and to separate them. Spawning boxes in net form, containers, cones or caves are efficient solutions to ensure the survival of the fish offspring.

Advantage of spawning box

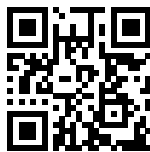

Protection of fry against predators
Safe breeding
No stagnant water thanks to slits
Easy to clean

Easy installation

Attachment of the spawning box with suction cups to the aquarium wall. 3-in-1 solution - Single spawning box, double spawning box or as breeding box: When a pregnant female fish spawns in a spawning box, the baby fish fall through the grid and are safe from the other fish. Air chambers mean the spawning box floats on the water surface. No stagnant water: the slits in the box enable the water to flow.

Tip: When using an air stone inside the spawning box the oxygen content rises, and this dramatically reduces the risk of a fungal infection in the spawn.

- Our customer's wishes are of the utmost priority for our company. Our production site in Germany not only means we take our social responsibility seriously, it also ensures the high quality of its products. With our research department and our worldwide expeditions into the habitats of the animals we set new standards with our product innovations.
