Product information

Maintenance and cleaning

Food and plant remains and metabolic products pollute the aquarium water. Cleaning your tank and accessories and carrying out regular partial water changes is good for your aquarium animals and makes having an aquarium more fun for you.

Effortless removal of persistent deposits

The JBL glass pane cleaner Aqua-T Triumph facilitates the easy removal of stubborn algae from the aquarium panes. Thanks to the small blade distance to the holder of the cleaner the silicon seal of the aquarium is not damaged. The Aqua-T is suitable for freshwater and saltwater aquariums. The protective cap prevents injuries when not in use and also serves as rubber scratcher to clean the outside of the aquarium pane.

JBL Aqua-T Triumph spare blades

The spare blades for the Aqua-T Triumph glass pane cleaner also fit other models with similar blade inserts. The product is delivered in a safety box.
