

JBL AlgoPond Green

Anti-algae agent to combat green water in ponds

Suitable for: 

- For fast and effective control of all types of floating algae (green water) in garden ponds
- Easy to use: determine the required quantity, mix it with pond water in a watering can, pour it evenly over the pond. Repeat after 24 h
- Reliable and fast: attacks and destroys algae cells within a few days
- Without copper. Harmless for fish and plants
- Package contents: bottle with dosing cup as lid, or canister. Dosage: 25 ml per approx. 1000 l pond water. Repeat after 24 hours

JBL AlgoPond Green

Product information

To combat floating algae in the garden pond AlgoPond Green eliminates floating algae (the cause of green water in the pond). The effective algaecide doesn't disturb the balance of the garden pond. Once killed off, the algae and the algaecide are degraded by bacteria living in the pond.

JBL's zero-risk concept Algae can pollute the pond water and thus cause damage to the fish and the plants in the pond. In collaboration with scientists JBL has developed a concept for a permanent removal of algae.

"1-2-3 algae-free" Stabilise the water: increase the mineral content for anti-algae agents (JBL StabiloPond) to work more effectively Combat algae: add a suitable anti-algae agent (JBL AlgoPond) into the water Limit nutrients: remove the nutrients of dying algae (JBL PhosExPond)

AlgoPond Green is easy to use Always use it in the morning. Determine the required quantity for the garden pond. Mix the calculated quantity with pond water in a watering can and spread it evenly over the pond. After use do not bathe in swimming ponds for 1 week.

Dosage: 25 ml per approx. 1000 l pond water. Repeat after 24 h.
